

12 Volt

OPERATING INSTRUCTIONS

1. For best results idle motor when using this appliance.
2. Uncoil wire.
3. Insert male plug into 12 volt (12 Volt only) Cigarette Lighter Outlet.
4. If, after being properly plugged into your cigarette lighter, your appliance fails to operate properly, DON'T BE ALARMED, it is probably due to one of these reasons:

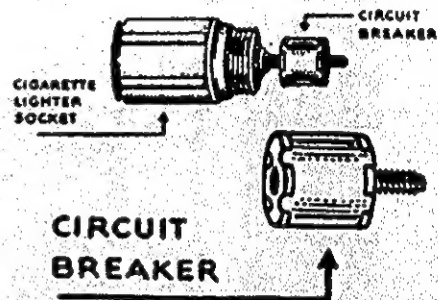

(A) Occasionally, tobacco or other foreign material will collect on the contact point at the bottom of the cigarette socket well. Use a small piece of WOOD to scrape such material from the contact point; then insert the plug and twist it several times to make a good contact.

(B) Check your fuse panel to be certain that the fuse controlling your cigarette lighter is not worn or weak. To be certain of satisfactory performance, it is most desirable to replace your present fuse with a new 20-amp fuse.

(C) Some cigarette lighters have a separate circuit breaker located directly behind the cigarette lighter socket.

(D) If your lighter is not working, this circuit breaker may have blown and requires replacement. If such is the case, replacement should be made with a 15-amp circuit breaker, such as Cuno No. 60232-1, or Casco No. LFA-30404, which are being installed in most new cars.

THIS UNIT IS DESIGNED TO WORK
WITH A 12 VOLT BATTERY ONLY

LIMITED ONE YEAR WARRANTY

Guarantee

This appliance is guaranteed to be free from defects in workmanship and material for one year from date of purchase. (See Registry Card.)

The Company agrees to repair or replace any parts, under this guarantee, which may become defective under normal and proper use, and provided the apparatus is used on the voltage circuits marked on the name plate. The Company will repair or replace defective parts under this guarantee, if returned to the factory or authorized service station, freight or postage prepaid. Please include \$5.00 to cover return mailing, insurance and handling. Correction of such defects by repair or replacement shall constitute a fulfillment of all its obligations with respect to the apparatus sold hereunder.

IMPORTANT: Do not tamper with or attempt to take this appliance apart. Such action will void this guarantee.
